

Before

After

This is a before and after X-ray from one of our patients.

Devin is part of the recovery program at The Dream Center and has been receiving regular adjustments from Dr. April since January of this year.

"I have tried to get sober over and over. That never lasted long." Devin was never able to shake the cravings or stay sober long.

Since coming to Maximized Living, Devin has noticed a dramatic change in his mindset and recovery. "I've been coming for two months. For two months I haven't had any cravings for drugs. I realized that now when I think about drugs they don't even seem appetizing. I finally have hope in sobriety." We celebrate this milestone in Devin's sobriety and health!

Thank you for letting us partner with you!
